Security Compliance Report

Audit Information

Audit ID:	#31	Date / Time:	2026-08-29 18:53:28 UTC
Device Hostname:	cisco_ios_compliant.txt	Vendor:	unknown
Model:	N/A	OS Version:	N/A
Framework:	CIS	Status:	Compliant

Compliance Summary

84%	Critical	10	8	1	1

Compliance Findings & Remediation

#1. CIS-NET-001 — SSH Version 2 Enabled		Severity: HIGH	Status: PASS
Finding:	SSH version 2 should be used for secure administrative access.		
Current State:	2		
#2. CIS-NET-002 — Telnet Disabled		Severity: CRITICAL	Status: PASS
Finding:	Telnet should not be enabled for remote administrative access.		
Current State:	False		
#3. CIS-NET-003 — Insecure HTTP Management Disabled		Severity: HIGH	Status: PASS
Finding:	HTTP administrative access should be disabled.		
Current State:	False		
#4. CIS-NET-004 — HTTPS Management Enabled		Severity: MEDIUM	Status: PASS
Finding:	HTTPS should be enabled for secure management access when supported.		
Current State:	True		

#5. CIS-NET-005 — Administrative Logging Enabled		Severity: HIGH	Status: PASS
Finding:	Administrative actions should be logged for accountability.		
Current State:	True		
#6. CIS-NET-006 — Network Time Protocol Configured		Severity: MEDIUM	Status: PASS
Finding:	NTP should be configured for time synchronization.		
Current State:	True		
#7. CIS-NET-007 — Administrative Login Timeout Configured		Severity: MEDIUM	Status: PASS
Finding:	Administrative sessions should have a reasonable timeout.		
Current State:	300		
#8. CIS-NET-008 — Secure SNMP Configuration		Severity: HIGH	Status: UNKNOWN
Finding:	SNMP should only be considered secure when configured securely.		
Current State:	Not observed		
Remediation:	Manual remediation required		
#9. CIS-NET-009 — Strong Password Policy		Severity: CRITICAL	Status: FAIL
Finding:	Administrative credentials should follow a strong password policy.		
Current State:	unknown		
Remediation:	Manual remediation required		
#10. CIS-NET-010 — Unrestricted Management ACL		Severity: CRITICAL	Status: PASS
Finding:	Administrative access should not be unrestricted or dangerous.		
Current State:	['deny', 'permit']
